

Post-doctoral grant announcement

A post-doctoral position in the project ‘BioRec - Non-Cooperative Multimodal Biometric Recognition’ (PTDC/EIA/69106/2006), financed by Fundação para a Ciência e Tecnologia, will be granted. Details:

1. Duration: 30 (thirty) months, renewable after the first 12 and 24 months.
2. Activity: starting on February 11, 2008, and according to the Regulamento da Formação Avançada e Qualificação de Recursos Humanos da Fundação para a Ciência e a Tecnologia (<http://www.fct.mctes.pt/pt/apoios/formacao/ambitoprojectos>)
3. Tasks: The candidate will support all activities related to the project, namely, the production of biometric databases, the implementation of face detection and recognition algorithms in the visible and infrared domains and other biometric algorithms as needed during the project execution.
4. Scientific supervision: the work will be done at the University of Beira Interior under the supervision of Prof. Luís Alexandre.
5. Requirements: The applicants must hold a PhD in Computer Science, Informatics or similar area and must preferably have experience in Pattern Recognition, Image Processing and Biometrics. The applicants must be able to program in C++, Matlab and to work in Linux.
6. Stipend: The stipend is defined by the FCT table for research grants.
7. Application documents: The applicants must send a face letter (maximum 1 page) and the CV by mail or email to: Luís Alexandre, Dept. Informática, Universidade da Beira Interior, Rua Marquês d’Ávila e Bolama, 6201-001 Covilhã, email: luis.alexandre@ubi.pt
8. The selection will be done in two phases: a CV analysis and an interview (to the CV selected applicants). The interview might not be necessary in case the jury finds an appropriate candidate through the CV.

9. Start and end date for applications: from December 21, 2007 to January 18, 2008.

For further information please email: luis.alexandre@ubi.pt

Covilhã, December 20, 2007

Prof. Luís Alexandre
